PROFESSIONAL SUMMARY

Software Engineer with 1.5+ years of experience building and shipping production web, mobile, backend, and AI-powered applications. Skilled in Python, FastAPI, PostgreSQL, ReactJS, React Native, REST APIs, and AI/LLM workflows. Experienced in end-to-end feature ownership, scalable backend systems, data-driven applications, and production deployments.

EXPERIENCE

Software Engineer – QBee: AI-Powered Learning Platform

Oct 2025 – Present

Product-Based Company

- Built and shipped production features for a React Native learning application serving **6,000+ users** across student, teacher, school, and admin workflows.
- Developed **Python, FastAPI, PostgreSQL, and REST APIs** powering quizzes, submissions, analytics, classrooms, homework, reporting, and **20,000+ quizzes**.
- Designed and developed the complete **ReactJS Admin Console**, providing centralized management and analytics for **6,000+ users**, schools, classrooms, quizzes, content, and reports.
- Created an end-to-end **school onboarding flow** covering school, teacher, classroom, and student setup, successfully onboarding **25+ schools** into the platform.
- Built **AI/LLM-powered** quiz and content generation pipelines using PDF/JSON content, syllabus structures, question banks, subtopics, and exam-specific targeting.
- Designed a reusable **question bank supporting 1,00,000+ questions**, with shared question membership across tests and optimized quiz generation using caching.
- Implemented an **end-to-end push notification service** using APNs/Expo, including device-token registration, backend delivery handling, and React Native integration, reaching **1,200+ devices daily**.
- Developed AI narration, flashcards, video/PDF learning, gamification, QPoints, streaks, leaderboards, deep linking, OTP, and media workflows, while managing production database changes through **Alembic migrations**.
- Developed a dynamic banner management feature allowing admins to create and update promotional/informational banners, and implemented a secure **user deletion flow** across frontend, APIs, and database.
- Owned features **end-to-end** from requirement analysis and API/database design through frontend implementation, testing, debugging, and production release.

Software Development Engineer Intern – Datavave.ai

May 2025 – Sep 2025

Paid Internship

- Developed interactive and responsive client dashboards using **ReactJS, HTML, CSS, and JavaScript**, enabling NBFCs to visualize financial data, loan metrics, and risk insights.
- Developed **RESTful APIs using Python and FastAPI**, ensuring secure data flow and high performance across multiple system components.
- Built backend algorithms for **credit risk assessment and loan eligibility prediction**, along with reusable wrappers to streamline data processing and API integration.
- Contributed to the **orchestration layer**, integrating frontend, backend, and AI modules for seamless workflows and real-time loan processing.

PROJECTS

AI Voice-Interactive Chatbot

Python, NLP, OpenAI API

- Built a real-time voice chatbot using Python, NLP, OpenAI ChatGPT, Google Speech-to-Text, and Text-to-Speech APIs, achieving **85%+ transcription accuracy**.

Credit Risk Scoring System

Python, Logistic Regression, LLM

- Developed a credit risk scoring system evaluating **1,000+ synthetic transactions**, engineered 5+ financial features, and automated PDF reports with LLM-generated banker-style summaries.

TECHNICAL SKILLS

Languages: Python, JavaScript, C++

Backend: FastAPI, REST APIs, SQLAlchemy, Alembic, Node.js

Frontend/Mobile: ReactJS, React Native, Expo, HTML, CSS

AI/GenAI: LLM APIs, RAG, Prompt Engineering, NLP, AI Content Generation

Databases/Data: PostgreSQL, MySQL, MongoDB, Pandas, Jupyter Notebook, JSON

Tools/Concepts: Git, GitHub, Docker, Cursor, Claude Code, RBAC, Authentication, Caching, API Design, DSA, Data Structures, Algorithms, Software Engineering, OOP, Machine Learning, Artificial Intelligence, DBMS

EDUCATION

Marathwada Mitra Mandal's Institute of Technology, Pune

Dec 2021 – May 2025

Bachelor of Engineering in Computer Engineering

CGPA: 7.6/10

Dr. Chandrabhanu Sonavane Junior College, Solapur

Aug 2020 – Jul 2021

12th Grade (HSC)

91.67%
